**Security costs
going up?**

**Frequent
security officer
shortfalls?**

**Wondering
what else
can be done?**

HOW?

- ✓ Engage security consultants to conduct the assessment
- ✓ Engage security agencies that can do such consultancy

Scan QR code or visit
<https://use.org.sg/industry-transformation/security-consultancy>
for more information

WHY?

- ✓ Know what are key threats and vulnerabilities at your property, and how to pre-empt them
- ✓ Know what vulnerabilities arise from using 100% manpower
- ✓ Cover any security vulnerabilities with tech-manpower solutions

**Better security
need not be more
expensive.**

**Start now with this
3-step process.**

01
Conduct Security
Risk Assessment

Achieve
Higher Security,
Higher Productivity,
At Lower Costs

02
Install Suitable
Security Technology

03

Deploy Manpower to
Leverage the Technology

HOW?

- ✓ Know what security duties the man is required to do at your property
- ✓ Contact the Union of Security Employees if you are keen for security officers to be cross-trained in complementary skillsets such as basic electrical and plumbing skills

WHY?

- ✓ Understand how security outcomes are enhanced with a technology-manpower mix
- ✓ Know how you can gain more value through equipping manpower with relevant and complementary skills at your property

HOW?

- ✓ Call for tenders based on the security risk assessment and your desired security outcomes
- ✓ Find out about the different security solutions that work for your property type

WHY?

- ✓ Understand the optimal mix of technology and manpower that can meet your needs at a reasonable price sustainably
- ✓ Save more while ensuring good security outcomes in the long-run
